

## REMARKS

The above amendments and these remarks are responsive to the non-final Office action dated December 31, 2007, and are being filed under 37 C.F.R. § 1.111. Claims 1–28, 31–35, 50, and 51 are pending in the application (with claim 3 withdrawn from consideration), prior to entry of the present amendments to the claims. In the Office action, the Examiner rejected each of the pending claims as follows:

- Claims 17–28 and 31–35 were rejected under 35 U.S.C. § 112, second paragraph, as allegedly being indefinite;
- Claims 1, 2, 4–7, 9–15, 17, 18, and 20–27 were rejected under 35 U.S.C. § 102(b) as being anticipated by U.S. Patent No. 5,586,985 to Putnam et al. ("Putnam");
- Claims 1, 2, 4–7, 9–15, 17, 18, and 20–27 were rejected under 35 U.S.C. § 102(b) as being anticipated by U.S. Patent No. 6,440,135 to Orbay et al. ("Orbay");
- Claims 8, 16, and 19 were rejected under 35 U.S.C. § 103(a) as being unpatentable over Orbay in view of U.S. Patent No. 6,383,186 to Michelson ("Michelson"); and
- Claims 8, 16, and 19 were rejected under 35 U.S.C. § 103(a) as being unpatentable over Putnam in view of Michelson.

Applicant traverses the rejections, contending that all of the pending claims are definite and are patentable over the cited references, taken alone or in combination. Nevertheless, to expedite the issuance of a patent, and to more particularly point out and distinctly claim aspects of the invention that applicant wants to patent now, applicant has canceled all of the pending claims, without prejudice, and has added 23 new claims, namely, claims 52–74. However, applicant reserves the right to pursue any of the canceled claims, in original or amended form, at a later time. Applicant also has presented arguments showing that all of the pending claims are definite and are

patentable over the cited references, taken alone or in combination. Accordingly, in view of the amendments above and the remarks below, applicant respectfully requests reconsideration of the application and prompt issuance of a Notice of Allowance covering all of the pending claims.

***I. Claim Amendments***

The present communication adds 23 new claims, namely, claims 52–74. Each new claim is fully supported by the application. Exemplary support for each new claim is listed, without limitation, in the following table:

**II. Claim Rejections – 35 U.S.C. § 112, Second Paragraph**

The Examiner rejected claims 17–28 and 31–35 under 35 U.S.C. § 112, second paragraph, for allegedly being indefinite. However, applicant has canceled each of claims 17–28 and 31–35, rendering the rejections moot.

**III. Patentability of the New Claims**

The present communication adds 23 new claims. Each new claim is patentable over the cited references (Putnam, Orbay, and Michelson) because none of the cited references discloses, teaches, or suggests every element of any of the new claims. For example, each of new independent claims 52, 62, and 72 recites, in part, selecting a bone plate defining a long axis and further defining a transverse slot extending transversely to the long axis. None of the cited references discloses, teaches, or suggests a transverse slot as recited by these independent claims. Claims 62 and 72 further distinguish the claimed invention from the prior art by reciting that the transverse slot extends along an arcuate path. Independent claims 52, 62, and 72 thus should be allowed for at least these reasons, as should claims 53–61, claims 63–72, and claims 73 and 74, which depend, respectively, from claims 52, 62 and 72.

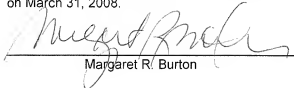

**IV. Conclusion**

Applicant believes that the present communication fully addresses all issues raised by the Examiner in the Office action and that all of the pending claims are patentable over the cited references. Accordingly, applicant respectfully requests that the Examiner issue a Notice of Allowance covering all of the pending claims. If the Examiner has any questions, or if a telephone interview would in any way advance

prosecution of the application, please contact the undersigned attorney of record, or his associate, Stan Hollenberg (Reg. No. 47,658), both at (503) 224-6655.
